

PATHWAY

The NDSFA, through its representative arm Nepean FC, has entered into a development pathway agreement with the Western Sydney Wanderers.

What this means to players within the Nepean region is that they have an opportunity to take part in our Development Programs and become a part of the Wanderers family.

The Western Sydney Wanderers Pathway is, as the name suggests, a pathway for players from local grassroots clubs to take to lead them to

Elite football should that be where their path leads them. Players can attend Nepean Development Programs and Holiday Clinics and be scouted to attend the WSW Advanced programs.

To qualify as a pathway partner, the NDSFA had to meet a strict set of criteria in regards to coaching philosophy, coaching qualifications, player trials and selections, etc that would enable us to support the Western Sydney Wanderers own philosophies and ethos.

An extension to this pathway is our Skills Acquisition Program. Our SAP players are also on this development pathway and our playing kits will have our shared pathway logo demonstrating the support from the Western Sydney Wanderers FC for our programs.

The Western Sydney Wanderers are proud to support the NDSFA and its representative body Nepean FC in these joint programs and all agreed that they look forward to a long, strong and mutually beneficial partnership.

The first of our Western Sydney Wanderers Pathway Programs is the Nepean Development Program commencing in Term 2.

These programs will be located at 3 venues across Penrith, Hawkesbury and the Blue Mountains to give maximum coverage to our players.
